

In opposition to LPFM preempting FM stations, I am greatly disturbed that K-Love, the ONLY station I listen to, (at 105.5) might be forced to quit transmitting. No other station in my area provides such a safe, clean, positive and uplifting message. There ARE other Christian stations here, but their music and format is not as beneficial as K-Love, and would not be sufficient as a substitute medium. Many of my friends, locally & across the nation, share the opinion that if K-Love were not available, we would have NO radio option that would be acceptable as a replacement. We would not choose to tune in to any other station that might be a negative influence on ourselves and our families. K-Love is a necessary part of every day for me, so I sincerely request that expansion of LPFM, IF it is necessary, be done in a manner that would protect the integrity and continued existence of K-Love.
